

Communications in Applied Analysis

An International Journal for Theory and Applications

ISSN 1083-2564

Aim and Scope: The journal publishes carefully selected original research papers on dynamical systems in their broadest sense (covering ODEs, all kinds of PDEs, FDEs, difference equations, functional equations), integral inequalities, control theory, approximation theory, calculus of variations, optimal control, optimization, numerical analysis, differential games. Applications include the modeling and analysis of engineering, biological, economic and industrial problems. Papers for publication will be communicated and recommended by the members of the Editorial Board.

Communications in Applied Analysis (ISSN 1083-2564) is published quarterly by Academic Solutions Ltd. with cooperation of Dynamic Publishers, Inc., P.O. Box 48654, Atlanta, GA 30362-0654, USA, in the months of January, April, July, and October. Articles published in **Communications in Applied Analysis** are indexed or abstracted in: Mathematical Reviews, Current Mathematical Publications, Math-Sci, Zentralblatt für Mathematik/Mathematics Abstracts, Abstract Journal, Russian Academy of Sciences.
